8. Rationale and Benefits of the Scheme:

The circumstances which justify and/or necessitate the proposed Composite Scheme of Arrangement and benefits of the proposed Amalgamation and Demerger as perceived by the Board of Directors of these Companies, to the Shareholders and other stakeholders are, inter alia, as follows:

8.1 The circumstances which justify and/or necessitate the proposed Amalgamation of the Transferor Companies No. 1 to 65 with the Transferee Company-BPTP Ltd are, inter alia, as follows:

- i.** All the Transferor and Transferee Companies are closely held un-listed Group Companies under common management and control. The proposed amalgamation of the Transferor Companies with the Transferee Company would result in consolidation of Group Companies and pooling of their resources into a single entity.
- ii.** The Transferee Company is the Flagship Company of the Group, engaged in real estate business. The Transferor Companies are also engaged in real estate business in various capacities. It would be advantageous to combine the activities and operations in a single Company, to grow the business in an efficient manner, achieve operational synergies and benefits from economies of scale by combining all existing real estate projects launched by the respective Transferor companies with the Transferee Company by way of amalgamation; and build strong capability to effectively meet future challenges in a competitive business environment. The proposed amalgamation will enable integration of respective business activities of the Transferor Companies with those of the Transferee Company.
- iii.** The proposed Amalgamation would result in business synergy, pooling of physical, financial and human resource of these Companies for the optimal utilization of these factors in the combined entity.
- iv.** The proposed Scheme of Arrangement will result in usual economies of a centralized and a large company including elimination of redundancies, reduction of overheads, optimal utilization of financial, human and other resources and enhancement of overall business efficiency. The proposed Scheme of Arrangement will enable these Companies to combine their managerial and operating strength, to build a wider capital and financial base and to promote and secure overall growth.
- v.** The amalgamation will result in significant reduction in multiplicity of legal and regulatory compliances which at present are required to be made separately by the Transferee Company as well as by the Transferor Companies.
- vi.** The proposed Scheme of Arrangement would enhance the shareholders' value of the Transferor and the Transferee Companies.
- vii.** The proposed Scheme of Arrangement will have beneficial impact on the Transferor and the Transferee Companies, their shareholders, employees and other stakeholders and all concerned.

8.2 The circumstances which justify and/or necessitate the proposed Demerger of identified 'Plotted Real Estate Undertaking' and identified 'Retail Real Estate Undertaking' (the Demerged Business 1 & 2,

respectively) of BPTP Ltd into the Resulting Companies No. 1 & 2, respectively, are, inter alia, as follows:

- i.** The Transferee Company is engaged in real estate business and other related activities. To have better management control and administrative convenience, the Transferee Company is proposing to demerge its 'Demerged Business 1 & 2' into two separate companies- the Resulting Companies No. 1 & 2, respectively.
- ii.** The management of Transferee Company intends to demerge two business verticals, viz., identified 'Plotted Real Estate Undertaking' and identified 'Retail Real Estate Undertaking' (the Demerged Business 1 & 2, respectively), which require separate management focus to chart out a clear growth path and unlock value for all involved stakeholders. Further, both these business verticals (i.e., the Demerged Business 1 & 2) have different funding requirements owing to the nature of business activities, and hence are proposed to be carved-out in order to obtain appropriate funding as required by the respective businesses. Accordingly, it is proposed to demerge the 'Demerged Business 1 & 2' of the Transferee Company in separate companies, i.e., Resulting Companies No. 1 & 2, respectively, to run as independent business activities.
- iii.** The Demerger will also enable greater/enhanced focus of management in the respective Demerged Businesses thereby facilitating the management to efficiently capture opportunities for respective businesses. It will also enable future fund raising from investors at specific business vertical level, attracting business specific investors and strategic partners and providing better flexibility in accessing capital, focused strategy and specialization for sustained growth and thereby enable de-leveraging of the respective businesses in the longer-term. The Demerger proposed by this Scheme will enable investors to hold investments in respective businesses with different investment characteristics thereby enabling them to stay invested in the business vertical(s) which best suit their investment strategies and risk profiles.
- iv.** The Demerger will enable creation of focused business entities for the respective Demerged Businesses. The proposed Demerger will impart better management focus, will facilitate administrative convenience and will ensure optimum utilization of various resources by these Companies.
- v.** The proposed Demerger will provide scope for independent expansion of various businesses. It will strengthen, consolidate and stabilize the business of these Companies and will facilitate further expansion and growth of their business. The Transferee Company and the Resulting Companies may pursue organic and inorganic growth opportunities of their respective business activities.
- vi.** The Transferee Company and the Resulting Companies No. 1 & 2 would be able to attract better valuation multiples from investors/capital markets in future, resulting in value unlocking for all the stakeholders.

vii. The proposed Demerger will have beneficial impact on the Transferee Company and the Resulting Companies, their employees, shareholders and other stakeholders and all concerned.

8.3 The Composite Scheme of Arrangement is proposed for the aforesaid reasons. The Board of Directors and Management of the Transferor Companies, the Transferee Company and the Resulting Companies are of the opinion that the proposed Scheme is in the best interest of these Companies, their Shareholders and other stakeholders.

The circumstances which justify and/or necessitate the proposed Composite Scheme of Arrangement and benefits of the proposed Amalgamation and Demerger as perceived by the Board of Directors of these Companies, to the Shareholders and other stakeholders are, inter alia, as follows:

- 1.1 The circumstances which justify and/or necessitate the proposed Amalgamation of the Transferor Companies No. 1 to 65 with the Transferee Company-BPTP Ltd are, inter alia, as follows:
 - i. All the Transferor and Transferee Companies are closely held un-listed Group Companies under common management and control. The proposed amalgamation of the Transferor Companies with the Transferee Company would result in consolidation of Group Companies and pooling of their resources into a single entity.
 - ii. The Transferee Company is the Flagship Company of the Group, engaged in real estate business. The Transferor Companies are also

engaged in real estate business in various capacities. It would be advantageous to combine the activities and operations in a single Company, to grow the business in an efficient manner, achieve operational synergies and benefits from economies of scale by combining all existing real estate projects launched by the respective Transferor companies with the Transferee Company by way of amalgamation; and build strong capability to effectively meet future challenges in a competitive business environment. The proposed amalgamation will enable integration of respective business activities of the Transferor Companies with those of the Transferee Company.

- iii. The proposed Amalgamation would result in business synergy, pooling of physical, financial and human resource of these Companies for the optimal utilization of these factors in the combined entity.
- iv. The proposed Scheme of Arrangement will result in usual economies of a centralized and a large company including elimination of redundancies, reduction of overheads, optimal utilization of financial, human and other resources and enhancement of overall business efficiency. The proposed Scheme of Arrangement will enable these Companies to combine their managerial and operating strength, to build a wider capital and financial base and to promote and secure overall growth.
- v. The amalgamation will result in significant reduction in multiplicity of legal and regulatory compliances which at present are required to be made separately by the Transferee Company as well as by the Transferor Companies.
- vi. The proposed Scheme of Arrangement would enhance the shareholders' value of the Transferor and the Transferee Companies.
- vii. The proposed Scheme of Arrangement will have beneficial impact on the Transferor and the Transferee Companies, their shareholders, employees and other stakeholders and all concerned.

1.2 The circumstances which justify and/or necessitate the proposed Demerger of identified 'Plotted Real Estate Undertaking' and identified 'Retail Real Estate Undertaking' (the Demerged Business 1 & 2, respectively) of BPTP Ltd into the Resulting Companies No. 1 & 2, respectively, are, inter alia, as follows:

- i. The Transferee Company is engaged in real estate business and other related activities. To have better management control and administrative convenience, the Transferee Company is proposing to demerge its 'Demerged Business 1 & 2' into two separate companies- the Resulting Companies No. 1 & 2, respectively.
- ii. The management of Transferee Company intends to demerge two business verticals, viz., identified 'Plotted Real Estate Undertaking' and identified 'Retail Real Estate Undertaking' (the Demerged Business 1 & 2, respectively), which require separate management focus to chart out a clear growth path and unlock value for all involved stakeholders. Further, both these business verticals (i.e., the Demerged Business 1 & 2) have different funding requirements owing to the nature of business activities, and hence are proposed to be

carved-out in order to obtain appropriate funding as required by the respective businesses. Accordingly, it is proposed to demerge the 'Demerged Business 1 & 2' of the Transferee Company in separate companies, i.e., Resulting Companies No. 1 & 2, respectively, to run as independent business activities.

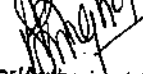

- iii. The Demerger will also enable greater/enhanced focus of management in the respective Demerged Businesses thereby facilitating the management to efficiently capture opportunities for respective businesses. It will also enable future fund raising from investors at specific business vertical level, attracting business specific investors and strategic partners and providing better flexibility in accessing capital, focused strategy and specialization for sustained growth and thereby enable de-leveraging of the respective businesses in the longer-term. The Demerger proposed by this Scheme will enable investors to hold investments in respective businesses with different investment characteristics thereby enabling them to stay invested in the business vertical(s) which best suit their investment strategies and risk profiles.
- iv. The Demerger will enable creation of focused business entities for the respective Demerged Businesses. The proposed Demerger will impart better management focus, will facilitate administrative convenience and will ensure optimum utilization of various resources by these Companies.
- v. The proposed Demerger will provide scope for independent expansion of various businesses. It will strengthen, consolidate and stabilize the business of these Companies and will facilitate further expansion and growth of their business. The Transferee Company and the Resulting Companies may pursue organic and inorganic growth opportunities of their respective business activities.
- vi. The Transferee Company and the Resulting Companies No. 1 & 2 would be able to attract better valuation multiples from investors/capital markets in future, resulting in value unlocking for all the stakeholders.
- vii. The proposed Demerger will have beneficial impact on the Transferee Company and the Resulting Companies, their employees, shareholders and other stakeholders and all concerned.

1.3 The Composite Scheme of Arrangement is proposed for the aforesaid reasons. The Board of Directors and Management of the Transferor Companies, the Transferee Company and the Resulting Companies are of the opinion that the proposed Scheme is in the best interest of these Companies, their Shareholders and other stakeholders.

Purpose

We have been engaged by BPTP Limited for the purpose of assessing swap ratio for issue of equity/preference shares/debentures.

It has been proposed to merge:

The above mentioned companies ("Transferor Companies"),

With

BPTP LIMITED ("Transferee Company").

For this purpose, the management of the Company intends to determine the swap ratio of shares and debenture of the Transferee Company for the issue of shares and debentures to the shareholders/debenture holder of the transferor companies.

It has been proposed to demerge:

Plotted Real Estate Undertaking as certified by the management on the basis of net book value into Logical Builders Private Limited (herein referred to as "Resulting Company 1").

Retail real estate undertaking as certified by the management on the basis of net book value into Praya Buildtech Private Limited (herein referred to as "Resulting Company 2").

From BPTP Limited (herein referred to as "Transferee company"). It is clarified that BPTP Limited is the Transferee Company for the purpose of the Amalgamation, whereas BPTP Limited is the Demerged/Transferee Company for the purpose of the proposed Demerger. However, to maintain uniformity, BPTP Limited has been referred to as the Transferee Company in this report.

The valuation of shares is done on the basis of internationally accepted pricing methodology on arm's length basis.

In the present instance, we have considered the NAV method to calculate the value of share of the Transferee Company/Transferor/Resulting companies because the proposed composite Scheme of Arrangement is an internal reorganization of group companies under common control.

Rationale about merger and demerger scheme

The circumstances which justify and/or necessitate the proposed Composite Scheme of Arrangement and benefits of the proposed Amalgamation and Demerger as perceived by the Board of Directors of these Companies, to the Shareholders and other stakeholders are, inter alia, as follows:

1. Merger:-

The circumstances which justify and/or necessitate the proposed Amalgamation of The Transferor Companies No. 1 to 65 as mentioned above with BPTP Ltd are, inter alia, as follows:

- i. All the Transferor and Transferee Companies are closely held un-listed Group Companies under common management and control. The proposed amalgamation of the Transferor Companies with the Transferee Company would result in consolidation of Group Companies and pooling of their resources into a single entity.
- ii. The Transferee Company is the Flagship Company of the Group, engaged in real estate business. The Transferor Companies are also engaged in real estate business in various capacities. It would be advantageous to combine the activities and operations in a single Company, to grow the business in an efficient manner, achieve operational synergies and benefits from economies of scale by combining all the existing real estate projects launched by the respective Transferor Companies with the Transferee Company by way of amalgamation and build strong capability to effectively meet future challenges in a competitive business environment. The proposed amalgamation will enable integration of respective business activities of the Transferor Companies with those of the Transferee Company.
- iii. The proposed Amalgamation would result in business synergy, pooling of physical, financial and human resource of these Companies for the optimal utilization of these factors in the combined entity.
- iv. The proposed Scheme of Arrangement will result in usual economies of a centralized and a large company including elimination of redundancies, reduction of overheads, optimal utilization of financial, human and other resources and enhancement of overall business efficiency. The proposed Scheme of Arrangement will enable these Companies to combine their managerial and operating strength, to build a wider capital and financial base and to promote and secure overall growth.

- v. The amalgamation will result in significant reduction in multiplicity of legal and regulatory compliances which at present are required to be made separately by the Transferee Company as well as by the Transferor Companies.
- vi. The proposed Scheme of Arrangement would enhance the shareholders' value of the Transferor and the Transferee Companies.
- vii. The proposed Scheme of Arrangement will have beneficial impact on the Transferor and the Transferee Companies, their shareholders, employees and other stakeholders and all concerned.

2. Demerger:-

The circumstances which justify and/or necessitate the proposed Demerger of identified 'Plotted Real Estate Undertaking' and identified 'Retail Real Estate Undertaking' (Demerged Business 1 & 2, respectively) of BPTP Limited into the Resulting Companies No. 1 & 2 (Logical Builders Private Limited and Praya Buildtech Private Limited), respectively are, inter alia, as follows:

- i. The Transferee Company is engaged in real estate business and other related activities. To have better management control and administrative convenience, the Transferee Company is proposing to demerge its Demerged Business 1 & 2 into two separate companies-the Resulting Companies No. 1 & 2, respectively.
- ii. The management of Transferee Company intends to demerge two business verticals (i.e. identified 'Plotted Real estate development' and identified 'Retail Real estate development'), which requires separate management focus to chart out a clear growth path and unlock value for all involved stakeholders. Further, both these business verticals i.e Demerged Business 1 & 2 have different funding requirements owing to the nature of business activities, and hence are proposed to be carved out in order to obtain appropriate funding as required by the respective businesses. Accordingly, it is proposed to demerge the Demerged Business 1 & 2 of the Transferee Company in separate companies i.e. Resulting Companies No. 1 & 2, respectively to run as independent business activities.
- iii. The Demerger will also enable greater/enhanced focus of management in the respective Demerged Businesses thereby facilitating the management to efficiently capture opportunities for respective businesses. It will also enable future fund raising from investors at specific business vertical level, attracting business specific investors and strategic partners and providing better flexibility in accessing capital, focused strategy and specialization for sustained growth and thereby enable de-leveraging of the respective business in the longer term. The Demerger proposed by this Scheme will enable investors to hold investments in respective businesses with different investment characteristics thereby enabling them to stay invested in the business vertical(s) which best suit their investment strategies and risk profiles.
- iv. The Demerger will enable creation of focused business entities for the respective Demerged Businesses. The proposed Demerger will impart better management focus, will facilitate administrative convenience and will ensure optimum utilization of various resources by these Companies.

- v. The proposed Demerger will provide scope for independent expansion of various businesses. It will strengthen, consolidate and stabilize the business of these Companies and will facilitate further expansion and growth of their business. The Transferee Company and the Resulting Companies may pursue organic and inorganic growth opportunities of their respective business activities.
- vi. The Transferee Company and the Resulting Companies No. 1 & 2 would be able to attract better valuation multiples from investors/capital markets in future, resulting in value unlocking for all the stakeholders.
- vii. The proposed Demerger will have beneficial impact on the Transferee Company and the Resulting Companies, their employees, shareholders and other stakeholders and all concerned.

Valuation — procedures and factors

The valuation exercise is aimed at the assessment of the Net assets Value of the company. We are required to arrive at the above valuations based on internationally accepted valuation practices.

Approach and Methodology

A merger is the combination of two or more companies into one by either closing the old entities into one new entity or by one company absorbing the other. In other words, two or more companies are consolidated into one company. The combination of the two companies involves a transfer of ownership, either through a stock swap or a cash payment between the two companies. In practice, both companies surrender their stock and issue new stock as a new company. There are several types of mergers. For example, horizontal mergers may happen between two companies in the same industry, such as banks or steel companies. Vertical mergers occur between two companies in the same industry value chain, such as a supplier or distributor or manufacturer. Mergers between two companies in related, but not the same industry are called concentric mergers. These mergers can use the same technologies or skilled workforce to work in both industry segments, such as banking and leasing. Finally, conglomerate mergers occur between two diversified companies that may share management to improve economies of scale for both companies. The above case is one of a horizontal merger.

In mergers and acquisitions (M&A), the swap ratio measures the number of shares the acquiring company has to issue for each individual share of the target firm. For M&A deals that includes shares as part of the consideration (compensation) for the deal, the share exchange ratio is an important metric. Deals can be all cash, all shares, or a mix of the two.

The choice of valuation approach depends on the purpose of valuation and various other business specific and industry specific factors. In some cases, a single valuation technique will be appropriate, whereas in others multiple valuation techniques will be appropriate. We have used Net assets value method on the book value for the calculation of swap ratios of the companies.

Procedure adopted and valuation method(s) followed for the assignment:

Approach Considered in our Value Analysis:

General Principle for Valuation

There is no single definition of the term 'Value' that is suitable for all purposes or at all times. The value of a particular asset may vary according to different valuation methodologies that are adopted to ascertain the value for a specific purpose. Valuation of securities is an inexact science. It may sometimes involve a set of judgments and assumptions that may be subject to certain uncertainties.

Selection of Valuation Methodology

The objective of the valuation process is to make a best reasonable judgment of the value of the shares of the Company. There are a number of valuation methodologies to value companies / businesses using historical and forecast financials of the company. Commonly used valuation methodologies are as follows:

➤ **Net Asset Value (NAV) Method**

In Net Asset Value (NAV) Method, the assets and liabilities are considered at book value. From the value of the assets, the potential liabilities which would have to be paid would be deducted and resultant figure is the NAV of the company.

This valuation approach is mainly used in case where the asset base dominates the earnings capability or in a case where the valuing entity is a holding company deriving significant value from its assets and investments. NAV Method is most applicable for the business where the value lies in the underlying assets or in cases where the ongoing operations of the business and the potential future cash flows of the business cannot be reasonably estimated or where the operations / business of an entity is discontinued.

➤ **Discounted Cash Flow (DCF) Method**

The Income Method focuses on the profit/earnings potential of the business being valued. The Income Method of valuation includes Discounted Cash Flow ("DCF") Method which has been discussed hereinafter.

Under DCF Method, the free cash flows attributable to the firm for a predetermined number of future years and perpetuity are considered and discounted to their present value. The free cash flows attributable to the firm are the cash flows from operating activities as reduced by the estimated/ planned capital expenditure and working capital requirement in each of the future years.

The cash flow projections, the estimations of capital expenditure and working capital requirement are based on the management's view of the future business prospects of the company and the anticipated economic conditions in relation to the industry in which the company operates.

In the present instance, in view of the business operations and given the lack of projections on business and cash-flow, this method cannot be applied. Further, for maintaining uniformity in valuation approach for a book swap ratio, the discounted cash flow approach is not adopted for the purpose of valuation of Companies.

➤ **Market Price Method**

The market price of the equity share quoted on a stock exchange is normally considered as the value of equity share of the Company, if such shares are frequently traded. Equity Shares of the Companies are not traded on any stock exchanges and therefore, Market Price Method is not relevant for the present valuation exercise. Hence, we have not considered this method for the valuation.

➤ **Comparable Company Multiples (CCM) Method**

Under the Comparable Companies Multiple Method, the value is determined on the basis of multiples derived from valuations of comparable companies, as manifest through stock market valuations of listed companies. This valuation method is based on the principle that market valuations, taking place between informed buyers and informed sellers, incorporate all factors relevant to valuation.

Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances. The base(s) to which a multiple is commonly applied include sales, EBITDA, cash flows and book value.

We don't have same companies with same business and same structure hence this approach is not followed.

Selection of valuation methodology

Valuation of Equity shares

In the present instance, we have considered the NAV method to calculate the value of share of the Transferee Company/Transferor companies and swap ratio thereon because the proposed composite Scheme of Arrangement is an internal reorganization of group companies under common control.

Valuation of Redeemable Preference shares

In the present instance, we have considered the preference share value to calculate the value of share of the Transferor Companies and equity share value on NAV basis for Transferee Company and swap ratio thereon because the proposed composite Scheme of Arrangement is an internal reorganization of group companies under common control and management intends to issue to equity shares in exchange of preference shares.
