Applicability	This policy is applicable for all the projects, both New construction and Existing buildings under the purview of the BPTP.		
Purpose	Construction industry consumes massive amounts of energy. Both commercial and residential builders consider energy costs one of their highest expenses. Some construction companies also face environmental challenges. The Purpose of this policy to gain control over our energy consumption by reviewing and improving our process and operating practices.		
Aspects	<p>Energy consumption from non-renewable fossil fuels like construction material leave their carbon mark on the planet, and regulatory bodies continually tighten restrictions on emissions. So it is important for a construction company to explore ways and implement best practices for construction. We acknowledge that our entities have a significant impact on environment. At BPTP, we strive to adopt a proactive strategy to construct high performance buildings through following measures:</p> <ul style="list-style-type: none"><li>• Comply with all relevant statutory regulations to promote energy use, consumption and efficiency</li><li>• Adopt best energy efficient construction practices.</li><li>• Use fuels as efficiently as possible.</li><li>• Reduce where possible our dependence on fossil fuels through the adoption of renewable energy.</li><li>• Contribute positively to national target for greenhouse gas emission reduction.</li><li>• Providing employee with necessary awareness, education and training to implement this policy.</li><li>• Continuously review and improve energy performance of all the equipment installed.</li><li>• Set target and report performance enhancement</li></ul>		
Responsibility	All stakeholders including the subject matter experts, business partners, contractors, clients, occupants and our own employees in our efforts to address energy consumption.		
Amendments	This policy will stand automatically amended to the extent of any relevant change(s) in the applicable law and or for any change(s) in fact.
