

ENVIRONMENT POLICY

Protection of the environment continues to be a major focus for our organization. In order to best practice, we optimize energy and water usage in our projects and processes to conserve natural resources.

We always thrive to create and maintain a sustainable work environment for all human beings whether they are working/visiting / observing/ controlling/ monitoring/ or occupying any of our premise or infrastructure.

The management and staff of BPTP will balance the need to achieve business aims with the need to satisfy rising environmental aspirations, to improve the quality of the environment in local communities which may be affected by our operations. With this belief and practice, BPTP is standing up to achieve excellence in environmental performance in all its areas.

BPTP BELIEVES IN THE PHRASE – “SAVE ENVIRONMENT SAVE LIFE”

It shall always be our earnest endeavour to achieve the – **ZERO HARM TO ENVIRONMENT**, while pursuing this, we are committed to:

- **Comply** with relevant legislation, regulations, and standards for environmental protection set by local and national authorities.
- **Ensure** the environmental concerns are addressed at the planning stage of any works ensuring all social and local impacts are considered.
- **Ensure and Provide** staff with sufficient training, instruction, information, awareness, to cultivate environmental system, procedure, best practice, and shared responsibility towards environment protection among employees, contractors, stakeholders, customers, and surrounding community.
- **Create** an environment that encourages staff to identify and participate in sustainability initiatives.
- **Develop** all the building infrastructure as green building and environment friendly and monitor their performance throughout their occupation.
- **Promote** tree plantations, green surroundings, and the protection of biodiversity at our locations to be in harmony with nature.
- **Take** appropriate measures to prevent the environmental incidence and maximize recycling to reduce waste, and discharge as much as possible.
- **Ensure** mechanisms are in place to produce environmental targets and objectives and that such targets and objectives are achieved
- **Ensure** that all levels of management and all employees are accountable and responsible for the delivery of BPTP’s environmental performance.
- **Identify** potential environmental hazards or circumstances which might contribute to inappropriate levels of environment-related issues.
- **Ensure** the development, implementation, maintenance, and continual improvement of environmental strategies, processes, and procedures aimed at delivering the highest level of environmental performance in all our operations.
- **Commit** to exploring new technologies which ensure a clean and green environment.
- **Communicate** the policy to all stakeholders- buyers, contractors, consultants, employees, and the community.
