Applicability	This policy is applicable for all the projects, both New construction and Existing buildings under the purview of the BPTP.
Purpose	The purpose of this policy is to meet the clean and accessible water.
Aspects	<p>Water is one of the most crucial elements in construction related activities. Over the past century, the global rate of rise in water demand has been twice that of population growth. BPTP Group recognizes the need of active planning, developing, distributing and managing the optimum use of water resources. Following measures has been adopted at BPTP through which water management preservation can be done:</p> <ul style="list-style-type: none">• Install high-efficiency fixtures that reduces water waste and energy cost.• Monitor and measure water use of all the indoor equipment and landscaping requirement through sub-metering and determine the fixture performance and pinpoint leak.• Replace obsolete equipment with water efficient equipment and fixtures for existing buildings.• Capture and re-use rainwater and graywater for flush and domestic purpose.• Encourage landscape with native and adapted plants that require less water.• Encourage xeriscaping techniques such as mulching, grouping plants according to their water needs, drought tolerant species. Xeriscaping also has the added benefit of reducing runoff pollution into nearby bodies of water.• Install highly efficient water management irrigation system and techniques.• Minimise the use of water through best practice maintenance & cleaning routines• Achieve the highest practicable water efficiency standards in the development of the estate

	<ul style="list-style-type: none">• Integrate a whole-life costing approach in assessing the value for money of building and construction specifications against operational water savings• Engage with staff to inspire to take actions to reduce water consumption and encourage water saving behaviour.
Implementation and Monitoring	All stakeholders including the Board of Directors, CEO, experts, business partners, contractors, clients, occupants and our own employees in our efforts to address water management.
Amendments	This policy will stand automatically amended to the extent of any relevant change(s) in the applicable law and or for any change(s) in fact.
